

Audiology Service (9mths-18years)

Comprehensive hearing assessments.

Allied
Health

Nexus in partnership with the University of Melbourne now offers an Audiology Service that provides a comprehensive range of hearing assessments for infants, toddlers and children.

This service can determine your child's access to the important sounds required for development of communication. If a hearing impairment is diagnosed (either temporary or permanent), appropriate management advice is provided.

Our service is confidential and respectful of your needs, circumstances and culture.

What to expect during your appointment:

- Each appointment will take 35 minutes to complete.
- Assessments are undertaken in a purpose built sound proof booth.
- At the conclusion of the appointment you will receive a report to summarise your child's results.

Accessing this service:

- You can contact us directly for an appointment - no referral required.
- This service is provided at the Nexus GP SuperClinic, Wallan 7-11 High Street.
- Only persons aged 9 months to 18 years are eligible.
- Audiology Assessments are billed through Medicare. A current Medicare card is required.
- On the day, a \$30 administration fee is payable to Nexus.

#YOLO Live Well

You only live once, live well.

Nexus is proud to be working with the University of Melbourne to bring Audiology to our community.

The Audiology Service at Nexus is an expansion site for the highly skilled teaching clinic provided by the University of Melbourne. Our service will provide unprecedented access to hearing assessments for local children and their families.

In addition the service will also provide a state of the art training ground for the University of Melbourne's Masters of Clinical Audiology students.

Where can I go if I am not eligible for this service?

Audiology Australia provides a full list of Public and Private Accredited Audiology Centres.
